

Beach Boardwalk

**Need to provide hassle-free, ADA-compliant beach access?
Superdeck's low-maintenance decking provides a firm, secure
surface over virtually any terrain.**

Installing and maintaining access along beaches can be difficult. Our new five foot wide Superdeck panels provide a cost-effective solution to help you meet that challenge.

Non-skid Superdeck panels produce continuous, secure passageways that can accommodate wheelchairs (even the heavy motorized ones), strollers, wagons, carts, pedestrians and pets. Unlike temporary fabric panels, rigid Superdeck panels won't shift, wrinkle or become impassable from wind and weather. Superdeck's unique modular components install easily with standard tools. There's no need for expensive or potentially damaging heavy machinery.

Superdeck's durable polyethylene construction eliminates splits, splinters, nail-pops, rotting, and warping and is backed by a five-year limited warranty. For 21 years, Superdeck has been a leading innovator in developing unique solutions to the toughest public access problems. Multi-terrain? No problem. Heavy traffic? No sweat. Need easy installation? We're there.

Put Superdeck to work for you. Select Superdeck to protect the environment, preserve public safety, maximize accessibility, enhance the outdoor experience and comply with ADA, DNR, US Army, Coast Guard and Corp of Engineer requirements.

Your beach boardwalk can benefit from Superdeck's:

- Five foot wide panels which easily accommodate wheelchairs to pass and turn
- Low-maintenance, no-bounce, non-skid surface
- Flexible design for strength and durability
- Color-stabilized polyethylene material won't split, splinter, nail-pop, or rot
- Modular system for quick and easy installation with standard tools
- Several widths (24", 42" 60"), anchoring and railing options available
- Complies with ADA, DNR, US Army Corp of Engineers and Coast Guard requirements
- Proven track record of superior performance

Take advantage of these Superdeck offers:

- Ready to get started? Call 1-800-355-4093 today and speak with our Engineering Design Team. Qualified leads receive a detailed product design, product load characteristics and engineering specifications within 48 hours!
- Need more information before you speak to our Design Team? Call us at 1-800-355-4093 or send an e-mail with your mail address to info@superdecksystems.com. We'll send you a **FREE** 16 page "Universal Access Design Kit." It includes detailed product design information and engineering specifications to help assess your current project needs.
